INFORMAL COMMENTS ON THE WRITTEN OPINION OF THE ISA

The Written Opinion of the International Search Authority mailed 2 February 2006 has been received and considered. Applicants gratefully acknowledge industrial applicability of all original claims and novelty of original claims 18-19.

None of the cited references, alone or in combination, are believed to teach or suggest the present claims. In this regard, Applicants submit that

- the teaching of D5 has been misunderstood or mischaracterized, specifically, neither the examples nor claims of D5 appear to teach that a polymer reacted with a polysiloxane can be further reacted with an additional functional group-forming compound; and
- none of D1-D4 teach the use of a cyclic compound that includes at least one siloxane unit in its ring structure to provide a functionalized polymer that then can undergo additional functionalization.

Further, Applicants do not agree with the characterization of the problem to be solved; see, e.g., page 2, lines 1-9 of the specification as filed.

Finally, Applicants consider the items mentioned in Box VIII to be best handled during national phase proceedings.

Respectfully submitted,

David G. Burleson
Attorney for Applicants
